Education

Cornell University, College of Engineering, Ithaca, NY

May 2028

B.S. in Mechanical and Aerospace Engineering

GPA: 3.893

Glastonbury High School, Glastonbury, CT

May 2024

High Honor Roll

GPA: 4.729

Experience

Engineering and Facilities Internship, HyAxiom – South Windsor, CT

May 2026 – August 2026

- Analyzed facility power factor, recommending remediations to save \$18k on annual electricity bill.
- Designed Cell Stack analogue to match physical dimensions and properties to validate assembly procedure. Created and led testing procedure and report.
- Surveyed and itemized building safety equipment, improving monthly inspection accuracy by over 30% and reducing inspection time by 3 hours.
- Verified and updated AutoCad drawings of facility, locating and marking inspectable items.
- Coordinated with contractors and Facilities to audit equipment and systems, creating prioritized list of violations.

Research Assistant, Cornell Biofoundry – Ithaca, NY

April 2025 – Present

- Designed models suitable for 3D printing low modulus elastomer resin.
- Processed raw 3D scans through Fusion 360 to create printable models.
- Refined workflow, halving time required to process models and increasing final model quality.

Residential Assistant, Cornell University – Ithaca, NY

Aug 2025 – Jan 2026

- Facilitated orientation and move-in of over 400 students, providing resources and guidance.
- Built connections and established expectations through meetings and one-on-one conversations.
- Resolved conflicts between students by mediating collaborative discussion.

Assistant Head Guard Glastonbury Parks and Recreation – Glastonbury, CT

May 2024 – Aug 2025

- Implemented spreadsheet system for availability tracking, reducing time needed to substitute for absent guards.
- Worked closely with town management through daily reports and monthly meetings, planning staff training and policy.
- Resolved conflicts, both within the lifeguard team and with the public.

Technical Skills

- Classes: Statics, Dynamics, Mechanics of Materials, Thermodynamics, System Dynamics, Aeronautics
- CAD: Autodesk Fusion 360, SOLIDWORKS Design, Designing for 3D printing
- Fabrication: FDM Printing, SLA Printing, Metal Machine Shop, Rapid Prototyping
- Programming: Java, Python, MATLAB

Soft Skills

- Leadership and Communication: Cornell Leadership Certification Program, Assistant Head Guard
- Critical Thinking and Problem-solving: Experience in leadership and first response positions
- Detail-Oriented and Organized: Surveys and audits, Drawing verification and regulation compliance
